International Conference on Artificial Intelligence in Cybersecurity and Sustainability (AiSec'2024)

May 2-3, 2024, Essaouira, Morocco.

Hybrid Conference

Aim and Scope

The International Conference on Artificial Intelligence in Cybersecurity and Sustainability (AiSec) will be held in Essaouira, Morocco. It aims to create a collaborative platform in Artificial Intelligence and Cybersecurity to share their insights. The primary objective of the conference is to facilitate the exchange of scientific knowledge and contributions among researchers, developers, engineers, students, and practitioners. Additionally, the conference aims to foster the transition of foundational research into both institutional and industrial realms, as well as the translation of applied exploration into practical applications. Ultimately, the event will serve as a platform for researchers and participants to explore opportunities for national and international collaboration and networking, connecting universities and institutions from Morocco and beyond to advance research initiatives. Join us in Essaouira, Cadi Ayyad University to share your expertise, engage in vibrant discussions, and contribute to the collective effort in fortifying our digital future. Submit your papers and be a part of this crucial discourse shaping the integration of AI in cybersecurity and sustainability strategies.
